

Artwork Guide

To help us process your order faster, please use the guidelines below prior to submitting artwork

- Preferred file formats – print ready PDF, EPS or high resolution jpeg (300 dpi or greater) - in CMYK colour space if possible
- Outline ALL fonts
- Any images should be 300dpi at full print size
- 5mm bleed required for prints A3 and smaller
- 10mm bleed required for all other files
- Any critical colours should be specified with Pantone Matching System (PMS) numbers

Any artwork not ready for print that requires editing will incur a fee which you will be notified of before any changes are made

For files larger than 10Mb, we recommend sending them via [YouSendIt.com](https://www.yousendit.com) to our email address (sales@hksigns.com.au)

Once artwork approval is received, Hessel Kaan Signs & Neon Pty Ltd accepts no responsibility for incorrect wording, spelling mistakes, colours, formats and sizes.
